Race, ethnicity, and the retirement savings gap

Access matters

Racial and ethnic disparities in retirement savings persist in the U.S.

Nearly 60% of white workers participate in a retirement plan, compared with...

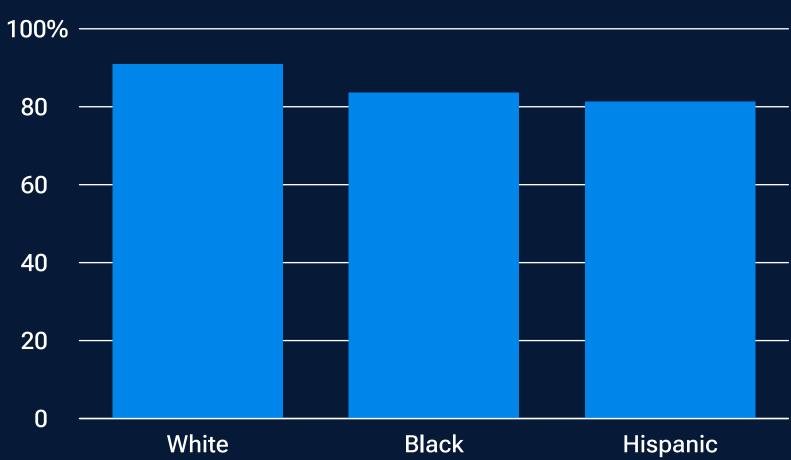

Access to retirement plans helps to narrow the gap

The participation gap between Black/Hispanic workers and white workers narrows for those with access to retirement plans. Retirement plan participation among private sector workers ages 21–64 with plan access²

Retirement isn't the only priority

For Black and Hispanic workers, other competing financial needs, include building an emergency fund, reducing debt, and saving for a home.3

The retirement industry can help close the gap by:

Expanding access to retirement savings plans

Policy makers can create more incentives for plan formation and participation.

Using plan design to "lift all boats"

Adopt auto-enrollment and auto-escalation in aiming to boost participation and savings. Adjust matching formulas, vesting schedules or timing of employer contribution when permissible and appropriate to help mitigate costs.

Increasing access to financial wellness programs

Programs can help with emergency savings, debt management, budgeting.

Targeting communications to encourage participation and saving

Sponsors can target workers who have chosen not to participate or who have lowered contribution rates.

Purposefully using plan data

Using demographic data will allow plans to analyze and identify solutions to gaps in retirement preparation.
